Anti Wrinkle Injections Aftercare

- Any bumps or marks caused by the injections should disappear within a few hours of treatment.
- Do not rub or massage treated areas for 48 hours after treatment. After washing treated areas pat dry very gently with a soft towel.
- Do not bend excessively or lie down for at least 4 hours after treatment.
- Do not exercise or take excessively hot baths for at least 48 hours after treatment. This includes saunas and jacuzzi.
- Avoid wearing make-up for a few hours after treatment. For a further 2 weeks avoid beauty treatments on your face (i.e. facials, face massage).
- No sunbed for 72 hours following treatments, BUT please be aware any future sunbed/sun exposure may break down your treatment more quickly and your practitioner cannot be held responsible for this.
- A slight headache sometimes follows a treatment (rare). If this should happen please do not panic paracetamol normally resolves this. If persistent please contact your practitioner.
- Should you experience any other side effects please contact your practitioner on the numbers below. Please do not panic this is a low risk treatment and complications are rare.
- We will not be held responsible for any client disappointment with treatment results if they fail to return for their check up appointment or refuse one.

- Please ensure you keep your check-up appointment that has been made for you. We do charge for missed appointments with no prior cancellation and for check-ups that run over the allocated time gap between the two appointments.

It is important to follow the specific aftercare instructions provided to ensure the best possible healing and results. If you have any questions or concerns about the aftercare process, be sure to ask your practitioner for more guidance.
